

PACIFIC PINES STATE HIGH

INSPIRING EXCELLENCE TO EMPOWER SUCCESS

Windows BYOD Wi-Fi Connection Guide (At Home)

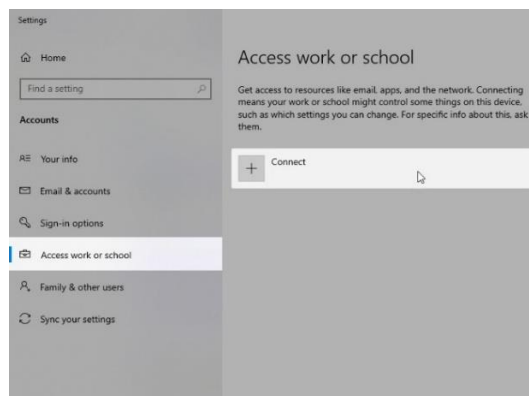

Step 1:

Press the Windows key or click the Windows icon in the bottom left of your screen. Then click on the icon above Document (it might be your picture), a menu will appear and choose "Change account settings".

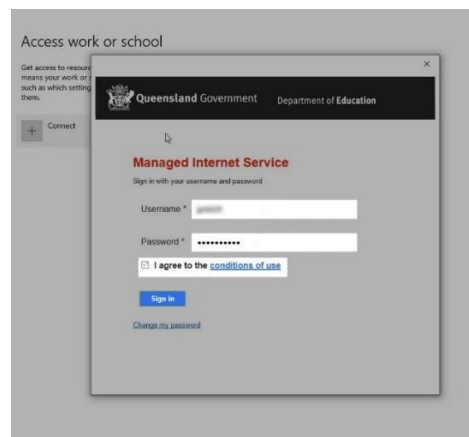

Step 2:

On the right-hand side click "Access work or school". Then click "Connect" a menu will appear and type in your email address.

Step 3:

After typing in your email address, it'll ask for your password. Type it in and agree to the "conditions of use" then sign in.

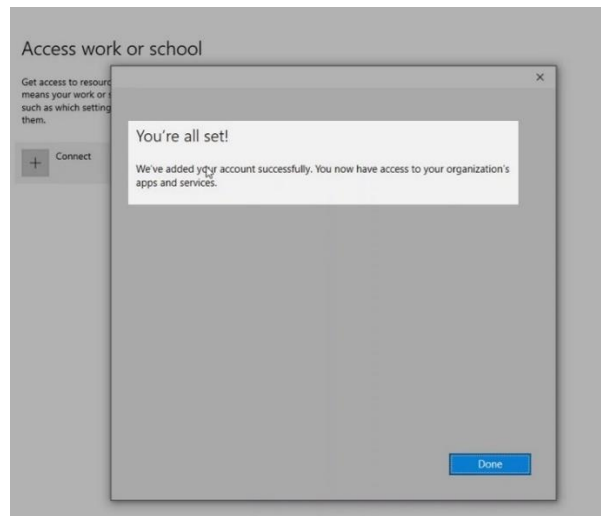

PACIFIC PINES STATE HIGH

INSPIRING EXCELLENCE TO EMPOWER SUCCESS

Step 4:

Once this appears your account has been added to your computer. Just click done and the settings will finish syncing over the next hour.

Step 5:

When you arrive at school you should be able to connect to EQNet now.

Every user is given a set amount of data per month:

Years 7-10 get 4500mb

Year 11 & 12 get 5000mb
